Nopezi Saputra Pratama

Software Engineer | Backend Engineer | Front End Developer | Chatbot Developer

Jakarta Timur, Jakarta Raya, Indonesia

Ringkasan

My name is Nopezi. I consider myself a passionate software engineer who is always willing to learn and explore new technologies and then apply it in real world scenarios. I have more than 6 years of experience spent in developing/designing and managing different software solutions for Hospitality/Publishing industry, online banking, process automation, real estate and e-commerce sectors. I have a comprehensive experience in web applications/site design and development in Java. I seasoned Web developer specializing in technologies like Javascript, Typescript with framework Nodejs Express or NestJs, Jquery, Html, Restful API, PHP.
